HOW TO DETERMINE YOUR SIZE

NECK: Measure the distance around the base of the neck and round up to the nearest 1/8". Example: if the actual measurement is 161/4" round up to 16½".

OVERARM: Measure the distance around your chest over the widest part of your arms. If the overarm measurement less 7 inches is greater than the chest measurement, use the overarm measurement when selecting suit or sport coat sizes. This will provide a greater comfort and fit in the arm and shoulder area.

CHEST: Stand with feet together, arms loosely at side. Measure around the fullest part of your chest keeping the tape measure just under the armpits.

WAIST: Measure around your waist where you normally wear your pants, keeping a slightly loose tape.

SEAT: Stand with feet together and measure the distance from the crotch seam to the bottom of the pant to the nearest inch.

HEIGHT: Measure from your head to the floor. The actual height is the size you would wear in pants if available in your local store.

BIG & TALL SIZE CHART

HOW TO DETERMINE YOUR SIZE

NECK: Measure the distance around the base of the neck and round up to the nearest 1/8". Example: if the actual measurement is 16 1/4" round up to 16 1/2".

OVERARM: Measure the distance around your chest over the widest part of your arms. If the overarm measurement less 7 inches is greater than the chest measurement, use the overarm measurement when selecting suit or sport coat sizes. This will provide a greater comfort and fit in the arm and shoulder area.

CHEST: Stand with feet together, arms loosely at side. Measure around the fullest part of your chest keeping the tape measure just under the armpits.

ARM: Measure from the center of the back of your neck, across the shoulder, to the elbow and down to the wrist. The number of inches equals your actual measurement.

WAIST: Measure around your waist where you normally wear your pants, keeping a slightly loose tape.

SEAT: Stand with feet together and measure around the widest part of your hips.

RINSE: Select a pair of pants that fit well and measure the distance from the crotch seam to the bottom of the pant to the nearest inch.
